

Usage Policy: External online (http://www.cen.iitb.ac.in/equipment_usage/index.php) requests (with allowable sample and materials) will be processed only on Tuesdays and Thursdays upon availability of the operator. The process will be limited by feasibility of the substrate characteristics with respect to dicing process in terms of thickness, crystal orientation etc. The usage request may not be honoured even after approval if any new information on the sample does not meet the requirements of the system.

Training Policy: currently training is not opened to external users.

Violation: Online requests with insufficient sample information or wrong sample information will be a serious violation especially upon approval and processing those requests with sample having materials which are not allowed.
