

Training and usage policy

- Controlled access tool.
- Request needs to be submitted by Wednesday afternoon 5 pm.
- One request per user will be served in every one month. The additional requests will be kept in a queue.
- Slot will be provided on first come first serve basis.
- Slots are not transferrable.
- Any semiconductor substrate is allowed.
- Sample size should be within 2cm x 2cm.
- For two terminal measurements maximum three samples will be allowed on a single run. (If sample sizes are small to accommodate 3 samples at a time.) For three or four terminal measurements only one sample is allowed in a single run.
- Sample history for each sample will be thoroughly checked. Any incomplete or ambiguous declaration will delay the process.
